

S4 Field Logistics by AG

Experience a clean core with standardised logistics, improved stock accuracy, and predictable field execution.

Connecting your warehouses, bases, and remote sites on a single, unified, intelligent AI-enabled platform.

In complex industries like Oil, Gas & Energy, Mining and Utilities, unpredictable delays, long lead times, and supply shortages cause costly downtime and disrupt critical operations. Built on SAP Cloud ERP, Private Edition, AG's SAP-qualified partner-packaged solution for SAP Field Logistics with SAP Extended Warehouse Management gives asset-intensive enterprises real-time insights, faster decisions, and full traceability from warehouse racks to field assets.

SAP Qualified PARTNER-PACKAGED SOLUTION

Accelerate your Warehouse Success with S4 Field Logistics Packaged Solutions

AG's **S4 Field Logistics Core** and **S4 Field Logistics Pro** packaged solutions deliver a unified, pre-configured offering within SAP Cloud ERP, Private Edition, tailored for industries with complex supply chains across Oil, Gas & Energy, Mining, and Utilities.

Rapidly deployed using AG's pre-configured AI accelerators, these solutions enable immediate rollout, streamline warehouse and last-mile operations, and provide real-time stock visibility across both remote and onshore locations.

20% LOWER LOGISTICS COSTS

Reduced material movement spend across platforms, vessels, yards and remote sites.

10-15% LESS INVENTORY WASTE

Improved accuracy and reduced loss on high-value, rental and returnable assets.

GO-LIVE IN 10-14 WEEKS

Fixed-scope deployment, SAP-qualified package with rapid ROI.

FAST TIME-TO-VALUE

Clear, low-risk investment with S4 Field Logistics Core and Pro packaged solutions.
